

TRAILER JITNEE

U.S. Patent Pending

The Ultimate Solution For Maneuvering Trailers Easily.

Trailer Jitnee Features:

1. Eliminate the need for a dedicated piece of motorized equipment just to move trailers
2. Maximize turning and maneuvering without damaging the trailer
3. Can connect to any trailer having a king pin or gooseneck ball
4. Designed to transfer 50% of trailer pin weight to its axle. Reducing the burden to the towing machine
5. Equipped with standard truck tractor 5th wheel
6. Used with standard forklifts, telehandlers, skid steers, utility & compact tractors
7. Connects with standard skid steer quick attach or forklift fork slots
8. Max trailer weight 24,000 lbs
Max pin weight 8,000 lbs
